Meranti entrance doors

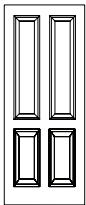

Tongue & Groove look

These beautiful doors are Joinery Construction Meranti veneer over laminated timber stiles, rails and fully fielded panels. The Meranti veneer is excellent for taking lightly pigmented wood stain finishes such as mahogany, walnut, teak, oak etc.

One application of the chosen stain such as SIKKENS CETOL HLS followed by 2-3 coats of a lightly pigmented varnish will ensure the timber grain remains visible. We recommend SIKKENS CETOL FILTER 7 because it forms a transparent film with UV filter for best protection. (See Plantation Doors recommendations for finishing and warranty for more detail)

Sealing: All 6 surfaces MUST be sealed immediately the packaging has been removed. Finishing should be completed with 14 days.

Note: All entrance doors are designed for use in sheltered entrance ways only.

Chateau

Walnut Teak Mahogany Light Oak Dark Oak

Stain colours shown are from recommendations above, they are indicative only and are not to be seen as an accurate reproduction of the stain on timber.

Plantation Doors are preferred by those in the trade and benefits include:

- 5 year warranty
- Can be trimmed and rebated for double door entry without an astragal

STYLE	CODE	DOMENSIONS
